INVITATION

On behalf of the Actuarial Association of Europe (AAE) we cordially invite you to the third European Congress of Actuaries (ECA 2019) which will be hosted by the AAE in conjunction with the Instituto dos Atuários Portugueses (IAP) and the European Actuarial Academy (EAA) on 6 and 7 June 2019. The event will take place at the Altis Grand Hotel in Lisbon, Portugal – one of Europe’s most attractive capitals.

This two-day event will present an exciting congress program with well-known invited speakers and experts from all over Europe who will speak in almost 40 breakout sessions. On the following pages you will find some more information on the program as well as all other relevant information for your participation. Further information can also be found on www.eca2019.org.

The ECA 2019 wouldn't be possible without the support of several partners from the insurance and finance industry. We would like to sincerely thank all partners for their engagement!

We are looking forward to welcoming you to Lisbon in June 2019!

SOCIAL PROGRAM – THE TASTE OF PORTUGAL

ECA 2019 features a memorable evening event in the vineyards of Quinta de Catralvos

A night to enjoy – The evening event at the ECA 2019 invites all delegates to a culinary journey through the beautiful vineyards of Quinta de Catralvos. A wide variety of wines, local delicacies and a gala dinner with exquisite food await the participants.

With over 240,000 hectares of vineyards, Portugal is one of the most famous wine regions in Europe. And one of the many vineyards is Quinta de Catralvos, located in the region of Azeitão. It is the perfect venue for the evening event of the ECA 2019.

On 6 June 2019, after the first congress day, busses will pick up the delegates and take them on a 30-minute journey to the picturesque and historical vine-

yard of Quinta de Catralvos. The farm is located in the foothills of the Serra da Arrábida, in the middle of 25 hectares of vineyards, and combines high quality wines with a cuisine inspired by the best of the aromas and palates of Portugal. Quinta de Catralvos attaches great importance to sustainability and among other things, only uses natural products for the production of its wine. Saúde!

As soon as all delegates arrive, the first attraction will already await them: experienced guides will explain the most important facts on winemaking while guests can taste five locally produced first-class wines. Full-bodied red wines, fresh vinho verde and an exquisite dessert wine showcase Portugal's wide variety of locally produced wines. Due to different soils and changing

climate zones Portugal has ideal conditions for the production of numerous different sorts. Portuguese sausages and a local delicacy, the typical Azeitão cheese, round off the tasting. Bom apetite!

Following the wine tasting, a four course gala dinner awaits the participants. The menu covers fresh fish and meat and also offers suitable alternatives for vegetarians or those with special dietary requirements. The bus shuttles ensure a safe transfer back to the hotel in downtown Lisbon. Could there be a better way to end the first day of the ECA 2019?

Date: 6 June 2019

Duration: 17.00-22.00

Venue: Quinta de Catralvos
(Estrada Nacional 379, 2925-708 Azeitão)

ABOUT THE ORGANIZERS

The Actuarial Association of Europe was established in 1978 under the name Groupe Consultatif. Its purpose is to provide advice and opinions to the various organisations of the European Union – the Commission, the Council of Ministers, the European Parliament, EIOPA and their various committees – on actuarial issues in European legislation. The AAE currently has 36 member associations in 35 European countries, representing over 24,000 actuaries.

Instituto dos Atuários Portugueses is an association created in 1945 by some of the most important Portuguese personalities in mathematics, finance and citizenship at the time. Since then, it has fought for the standing of the profession, contributed to the training of multiple generations of actuaries and has represented Portuguese actuaries on all manner of technical and professional issues. The IAP has more than 300 members divided into several categories.

The EAA – European Actuarial Academy GmbH was founded in 2005 by the actuarial associations of Austria, Germany, Switzerland and the Netherlands and offers CPD for actuaries and CERAs on a cross-border basis. Its foundation was a response to the increased demand of Central and Eastern Europe countries for actuarial knowledge and expertise. In 2017 the EAA organized 25 seminars and webinars with over 700 participants in different countries.
