Competency Framework Wheel

Role and objectives of the Wider Fields Committee

The Committee's role and objectives are aligned with the SAI Strategy:

The role of the Committee is

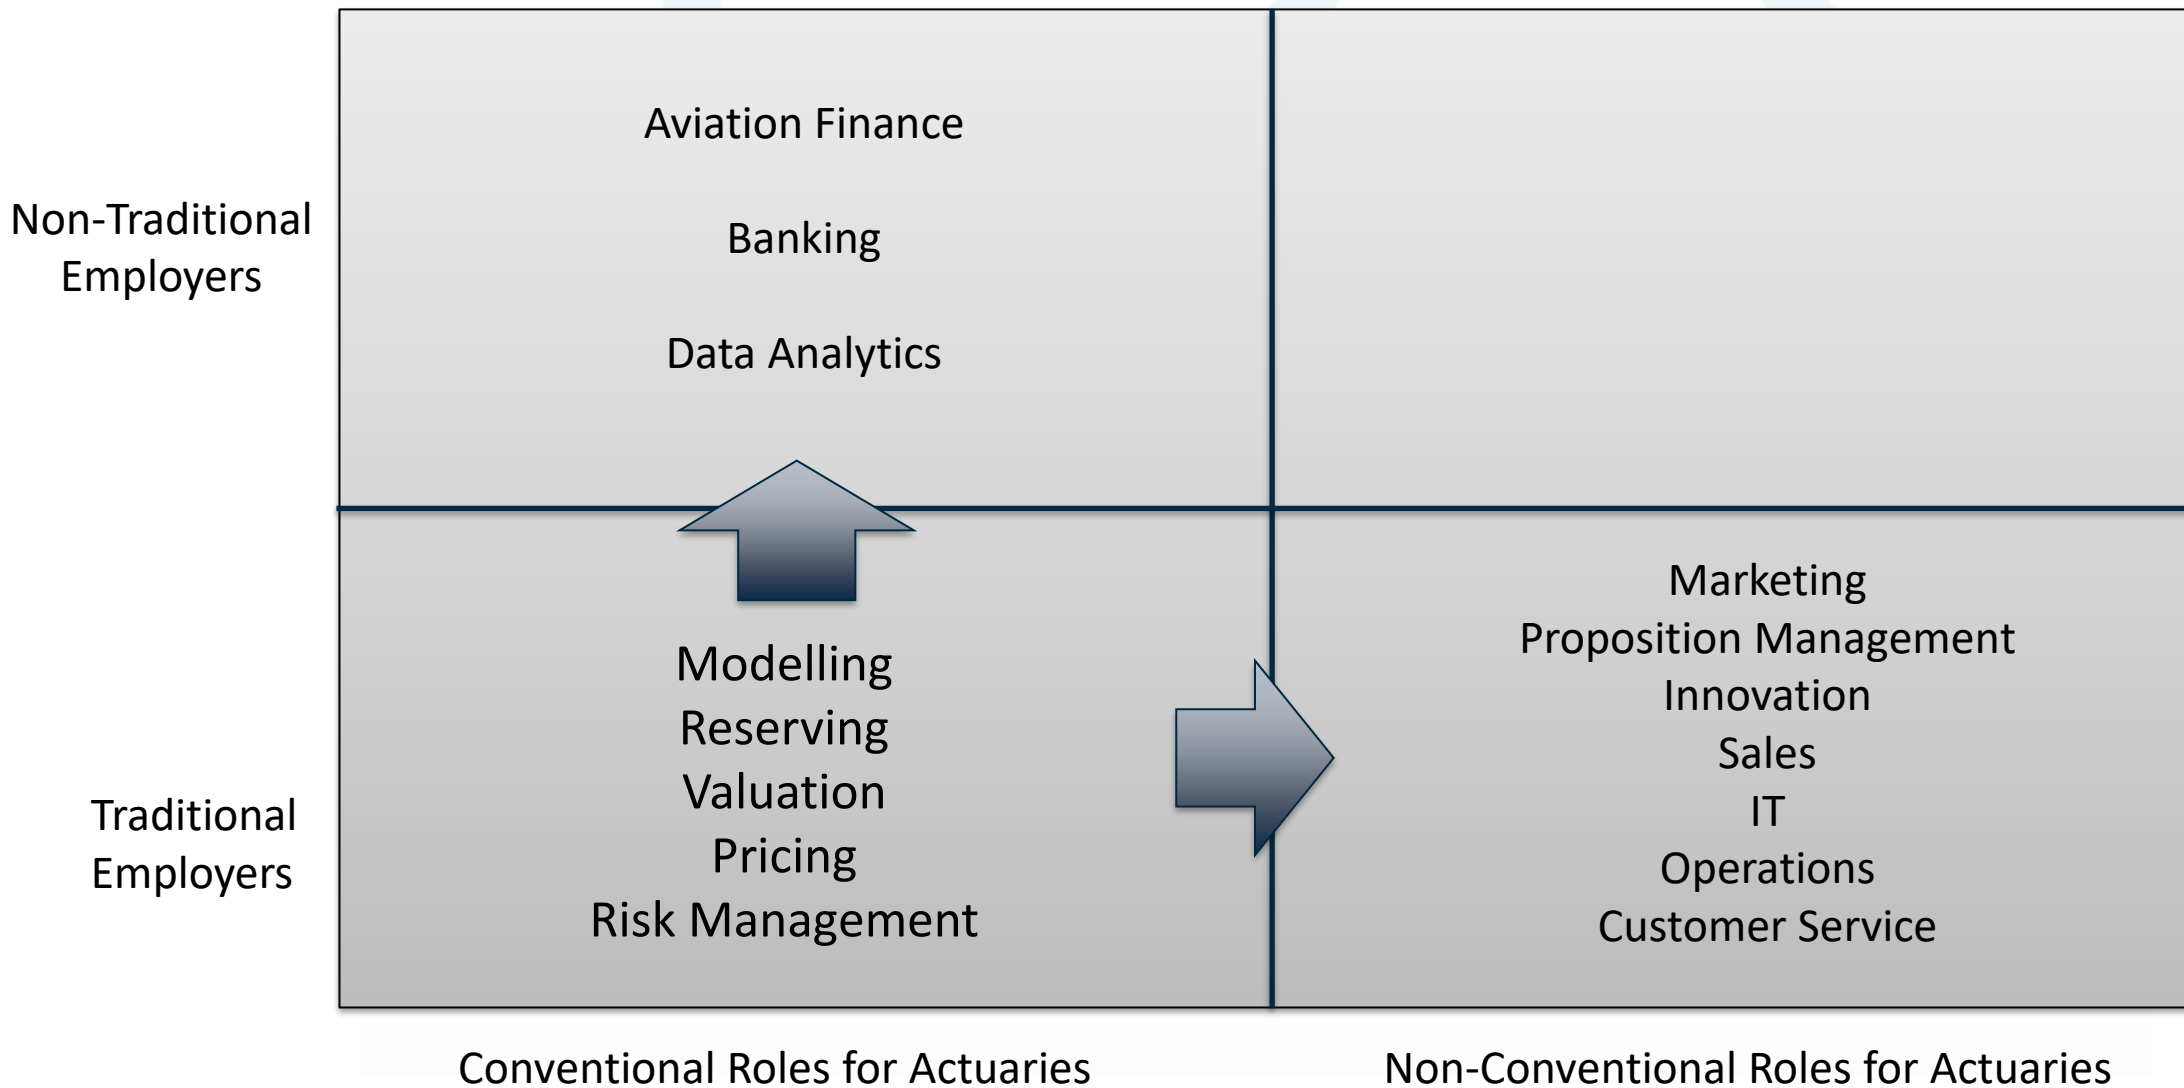

- To encourage members to explore a broader range of work and career opportunities;
- To showcase the broad capabilities of actuaries to a wider audience, both within and beyond the financial services industry; and
- To ensure the Society's member proposition meets the needs of actuaries in non-traditional areas of practice

Key areas of activity:

- **Promote** - showcasing actuaries' broader capabilities to a wider audience, including relevant employers, other professions, and universities
- **Engage** – ensuring that actuaries who work in wider fields remain involved in the Society, and find the membership proposition relevant to their needs
- **Support & Inspire** – encouraging actuaries to become broad-based business professionals, and supporting those seeking to move into non-traditional areas of work
