

Biography document

Barrett, Aisling	Aisling is a Principal in Milliman’s Dublin office. She runs the actuarial reporting team and carries out the Head of Actuarial Function role for a life insurer and a health insurer.
Baxter, Dr. Jim	Dr Baxter is Professional Ethics Consultancy Team Leader at the Inter-Disciplinary Ethics Applied Centre at the University of Leeds, where he has worked as a consultant to business and the professions since 2006. He is also a researcher in ethics, with interests in moral responsibility and mental illness. He has published on professional ethics, and has completed a number of commissioned research projects as part of his consultancy role, including research into integrity in collaboration with the Institute for Chartered Accountants in England and Wales, a National Inquiry into Ethical Decision-Making in NHS trusts, and research into professionalism in banking for the Banking Standards Board.
Burke, Roma	Roma is a Consulting Actuary, Chartered Director and Partner with Lane Clark & Peacock Ireland Ltd. She is Chair of the Pensions Council, a statutory body established under the Pensions Act to provide advice to the Minister on pension matters. She was a member of the 2021 Pensions Commission, which carried out a review of the State Pension. In this role, she also led the Commission’s Technical Subcommittee. Roma is a past Chair of the Society of Actuaries in Ireland Pensions Committee (2016-2018) and was a Council Member of the Society (2016-2019). Roma is a member of the Finance Audit and Risk Committee for the housing body, Respond. She is past Chair of the Dublin Simon Community Audit & Risk Committee and was an Independent Non Executive Director on its Board.
Caslin, John	John chairs the Society’s Banking and Aviation Finance Committee. In May this year, together with Maria Flannery he presented a paper entitled Blockchain and Crypto Assets to the Society. His name has been entered in the Prizes’ Book of the Institute and Faculty of Actuaries for two papers, one entitled Hedge Funds and another which he co-authored entitled Derivatives: Principles and Practices. He has served as a director of iShares plc and Alder Capital, and as a member of the investment committee of the board of Eagle Star (now Zurich). John is currently Director of Investment Management and Innovation at the Carne Group. He holds a first-class honours degree and Gold Medal in Engineering from Trinity College. In 2021, he earned a Postgraduate Diploma in Engineering in Connected and Autonomous Vehicles coming first in class.
Claffey, Mike	Mike Claffey is a Principal with Milliman and is the SAI’s Membre Titulaire on the AAE. He sits on the AAE Insurance Committee and is a member of their Solvency II working group.
Coleman, Kevin	Kevin leads Grant Thornton’s Prudential and Conduct Risk practice and has over 21 years experience in Risk, spanning professional services and also time in the CBI as a Head of

	Function. Kevin is currently leading the implementation of IAF in a leading Irish FS institution.
Crimmins, Nuala	Nuala is Head of Insurance for Grant Thornton Ireland, having joined the firm in 2021. She is a former Head of Division in the CBI Insurance Directorate, and was also Chief Internal Auditor for a number of insurance companies spanning a number of countries. She is a qualified actuary, internal auditor and project manager. Nuala sits on the Council of the Society of Actuaries in Ireland and chairs their Member Engagement Committee and SEAR Working Group.
Cronje, Charl	Charl is an actuary with over 30 years' experience. He helps insurers gain a competitive edge by better understanding their liabilities and risks. Charl has acted as chief actuary for several insurers, giving him a strong appreciation of the challenges faced by internal teams. He advises the State Claims Agency in Ireland on their clinical negligence and other liabilities. He also acts as the Independent Expert in Part VII transfers (equivalent to Section 13 transfers in Ireland). Charl was recently appointed by the UK Lord Chancellor to the Expert Panel advising on the Personal Injury Discount Rate in England and Wales.
Cronin, Sinead	Sinead Cronin is an actuary working in risk management for almost a decade. She is a founding member of the Society of Actuaries in Ireland's Sustainability and Climate Change Steering Committee and a member of the Actuarial Association of Europe's Sustainability and Climate-related Risks Working Group.
Delaney, Christopher	Christopher heads up Mercer's Risk Transfer Team and provides advice to both Trustees and Sponsors on journey planning for their DB pension schemes, helping schemes to proactively manage their liabilities through risk transfer projects including Enhanced Transfer Value (ETV) exercises and bulk annuity transactions. Christopher has been with Mercer for over 14 years and during that time has worked as an advisor to both Trustees and Sponsors in both Dublin and Toronto. He graduated from University College Dublin in 2009 with first class honours degree in Actuarial and Financial Studies and qualified as a Fellow of the Society of Actuaries in Ireland in 2013.
Dolan, Ramona	Ramona Dolan is the Society's Head of Professional Affairs having previously worked as an actuary in the life sector for over 20 years. She is the Society's delegated member of both the AAE's Education and Professionalism Committees.
Duffy, Emily	Emily is a fellow of the Society of Actuaries, and an Actuarial Manager within the Insurance Supervision Directorate at the Central Bank. Emily has worked in supervision for over 10 years on a variety of firms in the non-life sector, leading on a wide range of different topics from reserving and capital risk, to regulatory transactions, to data ethics work and climate risk more recently. Prior to joining the Bank, Emily completed a doctorate in theoretical physics.
Durkin, Tom	Tom heads up LCP's Insurance Consulting practice in London. He has over 20 years' actuarial experience. He works with a wide range of insurers, including commercial insurers, large personal

	lines insurers, and Lloyd's syndicates. Tom is a Non-Executive Director of a Professional Indemnity mutual insurer and was recently also Chief Actuary for a number of other insurers

He advises on all aspects of privacy and data protection law, including privacy compliance, organisational structures, international data transfers, responding to data breaches, and regulatory engagement. He has a particular focus on product counselling and advising global companies on the development and launch of new and innovative products and technologies in Europe. His clients include some of the world's leading technology and social media companies. Micheál has a degree in International Marketing and Languages from Dublin City University, and he is a Member of the Law Society of Ireland.</p>

McCoy, Selina	Associate Research Professor in Social Research and joint education research coordinator at the ESRI, and Adjunct Professor at Trinity College Dublin
McDonagh, Alan	Alan McDonagh is a Senior Actuarial Manager in Milliman's Dublin office having joined the company in 2022. He has 10 years of experience in the life insurance industry. In his previous roles, Alan gained in-depth IFRS 17 experience while working on SCOR's Group Methodology workstream, and he was a recipient of MetLife's Global Chief Actuary award in 2016 for his modelling and automation work on Variable Annuities. Since moving to consulting, Alan has worked extensively with companies on their IFRS 17 projects to help them develop and automate their BAU processes.
McHugh, Darragh	Darragh leads the life practice in WTW Ireland and is the proposition leader for M&A across the UK&I division. Darragh has worked on transactions across both buy and sell side in multiple EMEA markets including Ireland, UK, Italy, Portugal, Spain, Belgium and Turkey. He also has extensive experience in the Irish market outside of M&A, and has led a range of projects including statutory peer reviews, Section 13 transfers, and outsourced actuarial function teams. In addition, he is vice-chair of the SAI ERM committee.
McQuinn, Kieran	Research Professor who works on the quarterly economic commentary (QEC), macroeconomic and housing related projects. His research interests are in the macro-financial and economic growth areas. He spent over 11 years working in the Irish Central Bank where he had management positions in the research and financial stability areas. He started his career in University College Cork and then joined Teagasc, the Irish agriculture and food development authority, where he worked for over 5 years as a research economist. Kieran has a PhD in economics from NUI Maynooth. He has served on the management committee and the council of the Economic and Social Research Institute and he is currently adjunct professor of economics at University College Cork and Trinity College Dublin.
Mooney, Monina	Monina works with both public relations clients and communications training clients within The Communications Clinic. Her career has involved both in agency and in-house communications roles. She has previously worked in Wilson Hartnell Public Relations and Bill O'Herlihy Communications as Account Director managing a number of high-profile corporate accounts such as Marks and Spencer (Ireland), The National Lottery, Science Week Ireland and Unilever. She delivers a broad range of both group and one to one training with The Communications Clinic covering a diverse range of topics from presenting and public speaking to writing and impactful leadership skills.
Murphy, Kevin	Kevin Murphy is Chairman of Urbeo Residential Fund ICAV and AXA Pension Fund Ireland Limited and non-executive director of the Legal and General Assurance Society (UK), Canada Life

	<p>Assurance (Europe) plc, Canada Life Insurance Holding Company Ltd and ECCU Assurance Dac. Kevin retired from Irish Life in 2013 as Group CEO. Kevin is an actuary by profession. He is the past President of the Society of Actuaries of Ireland, past Chairman of the Irish Association of Investment Managers and a past President of the Irish Insurance Federation. He is currently Chairman of Insurance Ireland INED Council.</p>
Nolan, Gerard	<p>Gerard Nolan is a Principal and consulting actuary with Mercer. He provides general and actuarial consulting advice to a variety of clients, covering funding issues, accounting implications, pension plan design and compliance with various regulatory requirements. Gerard is actively involved with the Society of Actuaries in Ireland – currently as Chair of the Pensions Committee as well as being on the Society’s Council. He is also a member of Mercer’s Actuarial Best Practice Group.</p>
Nolan, Dr Paul	<p>Paul has worked as a climate scientist at the Irish Centre for High-End Computing (ICHEC) since 2013. Paul has a PhD in Meteorology (UCD), a M.Sc. in Mathematics (NUIM), a M.Sc. in High Performance Computing (TCD) and a B.Sc., in Mathematics (NUIG). He has lectured on Climate Dynamics and Mathematics at UCD and TCD for over 13 years. Paul’s main area of research (currently funded by EPA, Met Éireann, Marine Institute and SFI) involves modelling climate change on both a global and regional scale. Paul worked with the EC-Earth Earth System Model (ESM) European consortium for a decade on developing the ESM in preparation for CMIP6. Paul managed the running, data hosting and analysis of a large ensemble of global simulations on the ICHEC and ECMWF supercomputing systems. These simulations comprise Ireland’s contribution to CMIP6, and their results informed the IPCC AR6 WG1 & WG2 reports published in 2021 & 2022. A second main component of Paul’s climate modelling research involves simulating the future climate of Ireland on a national (& European via EURO-CORDEX) scale at high spatial resolution. This work involves downscaling CMIP5&6 data to provide high resolution (~3.8km) regional climate projections for Ireland using regional climate models.</p> <p>The downscaled climate datasets, produced by Paul, have informed numerous governmental climate change policy reports. The climate datasets are regularly shared with national research groups working on various climate impact studie. Paul’s climate modelling work also involves improving the ‘observational’ climate data record of Ireland by simulating the historical climate at very high detail. The resulting datasets have the potential to be utilised in a wide range of applications, including agricultural, public health, energy (wind, wave and solar), insurance, socio-economic planning, and fundamental studies in observed climate change trends and variability.</p>
Nutt, Frans	<p>Frans is an assistant manager in the Deloitte Ireland Actuarial Modelling Centre. He has worked on several actuarial modelling, reporting and analytics projects across the life, banking and non-</p>

	life disciplines. He is a fellow of the Institute and Faculty of Actuaries and Society of Actuaries Ireland.
O'Brien, John	John is a Dublin-based partner in Mercer and leads its European Strategic Risk Management group, a network of colleagues specialising in assisting larger and more sophisticated pension funds and financial institution clients to navigate areas such as asset-liability modelling, capital allocation, risk management, efficient financing of long dated liabilities, risk transfer and balance sheet management. During his time in Mercer, John has led on several ground-breaking transactions in the UK and European markets. He has twenty-seven years of experience working in the investment and financial services industry, of which fourteen have been in Mercer. He acts as a director of Mercer ICC, a Mercer-owned captive insurance company that was established as an innovative means for schemes to cost-effectively transfer longevity risk to the reinsurance market. Prior to joining Mercer, he worked for two years in an IFSC-based regulatory capital specialist investment firm, preceded by ten years in Irish Life Investment Managers. John graduated from Trinity College, Dublin in 1995 with a first class honours degree and gold medal in Mathematics. He qualified as a CFA in 2001, a QFA in 2020 and completed an MA in History of Family with University of Limerick in 2022. He has lectured on various postgraduate academic programs in Dublin, covering topics such as equity research, risk management, portfolio management and quantitative finance.
O'Donnell, Ian	Ian is a Senior Actuarial Manager in Milliman's Dublin office. Ian has experience in both the life and non-life fields, working on business portfolios including unit-linked and non-linked in domestic and cross-border markets. Ian's expertise includes valuation and financial reporting, pricing and product development, systems development and data integration, risk management and other consulting work.
O'Farrell, Shane	Shane is the Director of Corporate Partnership since early 2023, after holding a number of other senior positions in Irish Life Corporate Business including Propositions and Product Pricing. A qualified actuary (since 1999), Shane has a First Class Degree from UCD in Actuarial and Financial Studies. Shane has most recently led Irish Life thought development and research in areas like Auto Enrolment and DB De-Risking. Active in the industry, Shane has presented to large experts groups like the IAPF and Society of Actuaries many times and is former chair of the Society of Actuaries Finance and Investment Committee. A QFA, he is passionate about helping corporates achieve success in Employee Benefits and in member engagement in pensions in particular via behavioural science innovations.
O'Sullivan, Charlotte	Head of FS Customer Understanding for Deloitte UK, Charlotte has over 25 years of experience in customer understanding and advises clients on customers' everyday lives and how these impact their needs from the financial services industry. She is passionate about transforming FS companies into customer

	<p>obsessed organisations. Before Deloitte, Charlotte led customer research at Lloyds Banking Group for 12 years. Her work encompassed understanding customers' needs and experiences of banking, general insurance and life/pensions.</p>
Offenburg Sweeney, Grace von	<p>Grace is Head of Division within the Insurance Supervision Directorate of the Central Bank. She leads a multi-disciplinary team and is responsible for the Actuarial, Advisory and Major International Insurance Firms. She has over 10 years industry experience and 10 years regulatory experience. She started her career in the Irish general insurance sector as a general insurance pricing actuary and transitioned into investments, audit and broader European finance roles during her time in industry. She is a fellow of the Institute and Faculty of Actuaries.</p>
Pranav, Dr S.R.	<p>Pranav is a Doctoral Research Scholar, a nearly qualified actuary and a Consultant in Deloitte Ireland LLP's Actuarial, Rewards and Analytics team with more than 4 years of experience in the field of Actuarial Data Science in both Life and Non-Life Insurance. Prior to Deloitte, Pranav has worked with a global (re)insurer headquartered in Zurich and an Actuarial Data Science Consulting company based out of India.</p>
Rea, Jean	<p>Jean is a Partner and a senior actuary in KPMG's Actuarial and Applied Intelligence practices with over 15 years experience in the insurance industry. She is responsible for heading up the non-life actuarial services practice in KPMG Ireland. She also leads KPMG's market engagement in relation to insurance data and analytics capabilities and is supported by a large team of data and analytics professionals in our local Applied Intelligence practice. Jean works closely with the KPMG international network and leads KPMG's European and global actuarial modernisation working groups.</p>
Robin, Chantel	<p>Chantel is a Healthcare Actuary recently joining us. She has previously been with the Deloitte South Africa Office on the Actuarial team and worked closely with the Life Sciences and Healthcare team. Chantel has also previously headed up health economics for sub Saharan Africa at Merck and Co, and spent time in industry heading up the insurance risk and analytics department at Medihelp South Africa. She has extensive experience in applications of the actuarial skillset to critical stakeholders in the health care environment. This includes utilising the actuarial skill set to assist broader teams in providing solutions for not only health insurers but also professional associations, regulatory bodies, hospitals, third party administrators, managed care organisations and providers. Given the similarities between the South African and Irish environments (community rating, open enrolment, minimum benefits, risk equalisation etc.). She has previously been involved in development of reporting tools, hospital feasibility assessments, funding model designs, tariff negotiations, hospital patient flow models, patient scheduling, healthcare resourcing and broader</p>

	healthcare systems strengthening initiatives for the likes of Merck & Co, J&J, the South African Government, Discovery Health and Busamed.
Redmond, Aidan	Aidan is Director of Pricing, Underwriting and Customer Analytics in AXA Insurance with responsibility for Personal, Commercial and International Health lines of business. He has 13 years' industry experience, specialising in personal lines pricing, with a particular interest in the application of data science and AI techniques. He is heavily involved in AI ethics within AXA, leading the AI fairness working group in the European pricing community and contributing to AXA Group's Responsible AI Circle.
Regan, Ciara	
Saunders, Katie	Katie is a qualified actuary and Senior Consultant at LCP. She helps London market insurers, Lloyd's syndicates, commercial insurers and personal lines insurers across all actuarial areas. Katie led LCP's most recent annual analysis of Solvency II reporting from the top 100 UK and Ireland non-life insurers and is a member of the IFoA PPO working party.
Serrano, Pedro Écija	Pedro Écija Serrano is a Fellow of the Society of Actuaries in Ireland and has more than 20 years of experience in insurance and data analytics. He is the Head of R&D at Reitigh Software.
Shier, Philip	Philip worked as a pensions actuary for a leading consultancy in the UK and Ireland for over 30 years and was President of the Society in 2007-2009. He has been involved with the Actuarial Association of Europe (AAE) since 1999, serving as Chair of the Pensions Committee from 2005 to 2011 and Chairperson of the AAE in 2015-16. In 2016, Philip was appointed Head of Actuarial Practice at the SAI and he continued in this role until his retirement in May 2023.
Sloan, Joseph	Joseph Sloan is an Associate Director in the Dublin office of Milliman, having joined the company in 2018. He has 10 years of experience in the life insurance industry. Since joining Milliman, Joseph has been heavily involved in IFRS 17 assessment and implementation work for a number of companies. He has also co-authored briefing notes on IFRS 17 and delivered presentations to various industry audiences on this topic.
Srivastava, Megha	Megha is a senior consultant in Deloitte's Actuarial, Reward and Analytics practice. She is an Associate Actuary from IFoA with 8.5 years of experience in the US, Irish and Indian health and non-life (re)insurance industry. She joined Deloitte, Ireland in 2022 as a lateral hire from Deloitte, US India headquartered in New York, where over 6 years she provided health pricing and US GAAP reserving consulting services for clients across US insurers, employers and federal agencies. She has also worked for 1 year in a core industry environment on reserving and regulatory reporting to regulator of Indian health insurance markets. Specializes in actuarial reserve liability estimation, pricing, risk analytics and healthcare transformation solutions for insurers

	and federal government. Has worked across core insurance and strategic consulting projects.
Stack, Eóin	Eóin is a senior consultant at Finalyse. Eóin is a qualified actuary and CERA. He has experience in life insurance consulting, modelling and risk management. Eóin holds several certificates in Python programming and has developed data transformation and life actuarial valuation models in Python.
Steeden, Derek	<p>Derek Steeden is a Portfolio Manager within the Multi Asset Strategies group, which delivers systematic and fundamental multi-asset solutions. In this role, he is responsible for developing and deploying our strategic, tactical and liability-aware investing framework, managing holistic multi-manager strategies and buy-and-maintain liability-aware strategies, for pension, insurance and wealth clients.</p> <p>Derek joined Invesco in 2019. Prior to joining the firm, he was a portfolio manager for Legal & General Investment Management (LGIM), where he managed bonds and derivatives against liability targets in collaboration with internal and external managers. Before LGIM, he was responsible for liability-aware strategy at State Street (Global Advisors) and Ignis Asset Management (Phoenix Group), and at investment consultant at Watson Wyatt (WTW). He has been in the industry since 2005.</p> <p>Mr. Steeden earned an MA in Mathematical Sciences from the University of Oxford and is a Fellow of the Institute of Actuaries (FIA).</p>
Timmons, Deirdre	Deirdre is Director of Sustainable Finance and Reporting for PwC in Ireland with over 30yrs of financial services industry and consulting experience. With the sustainability reporting agenda becoming more intrinsically linked to access and deployment of finance, Deirdre works with clients on both agendas and with helping to understand how each is a clear driver of the other. In this she brings to bear her industry experience as an institutional investor, bond trader and capital raiser with her sustainability experience and qualifications gained over the past decade and more. Deirdre is also a lecturer in sustainability strategy, reporting and finance for both the Chartered Accountants Institute and for the Institute of Bankers.
Thomas, Louise	Louise is a Senior Manager in Deloitte's Actuarial, Rewards & Analytics practice. She currently supports clients in an audit and advisory capacity focusing on Pricing, Risk Management, IFRS17 and Solvency II. Prior to joining Deloitte, Louise held senior actuarial and executive roles for RSA Ireland and Aviva Insurance Ireland.
Thornton, Jacqueline	Jacqueline is the Director of Regulation and Policy Development at Insurance Ireland and leads the development of our Regulatory policy positioning with our members and she and her team support the technical aspects of our lobbying and advocacy. Prior to joining II, she worked in the UK for 15 years in a variety of regulatory policy & compliance roles within trade bodies, in-house compliance and consultants across a range of industries in financial services. Jacqueline enjoys nothing more than meeting

	members for coffee to discuss the regulatory hot topics domestically and from Europe and working with members to shape regulation so that the insurance industry can reach commercially viable and compliant solutions.
Wiebe, Jason	As Chief Risk Officer for RGA’s EMEA operations, Jason is responsible for all risk management operations in Europe, Africa and the Middle East. Jason is a qualified actuary with over 30 years of experience in life insurance/reinsurance in North America and Europe. Jason is a member of the Society of Actuaries in Ireland's Risk Committee and the Actuarial Association of Europe's Enterprise Risk Management Committee
Zafar, Noman	Noman is a Senior Manager in Deloitte’s Actuarial, Rewards and Analytics practice with over 13 years of experience in the Insurance and Consulting industries. He has lived and worked in multiple countries including Pakistan, UAE and Ireland. He has significant experience within IFRS17 and systems. .
