#### Social contribution

### **ESG**

- Group & local
- Net zero
- Customers
- Regulator

#### **CSR**

- Community
- Volunteering
- Charities
- Sponsorships

#### DEI

- Recruitment
- Promotion
- Support
- Training

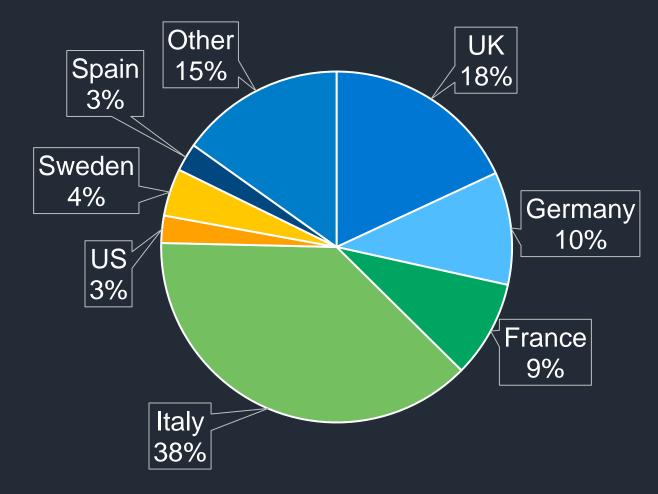

# Ireland as a location

#### International business

Ireland is home to a very substantial international industry.

With gross written premiums of €33 billion in 2022, Irish insurers are the largest writers of cross-border business in the EU.

Source: CBI data, using gross written premium as the metric.

#### A downward trend in terms of numbers

Source: For 2007-2015: EIOPA insurance Statistical Time Series; For 2016-2022: CBI Aggregated Statistical Data Template A

## **Current attractiveness**

	Score	Status
EU membership / market access	4.59	
Language	4.21	•
Fiscal regime	4.09	•
Political stability	4.09	
Innovation	3.59	-
Availability of skilled labour	3.38	-
Regulatory regime	2.79	
Cost of doing business	2.24	•

## Intentions for next five years

#### **Expect to still be here?**

Source: Survey of Insurance Ireland members (September 2023). Responses from international firms only. (n=41)

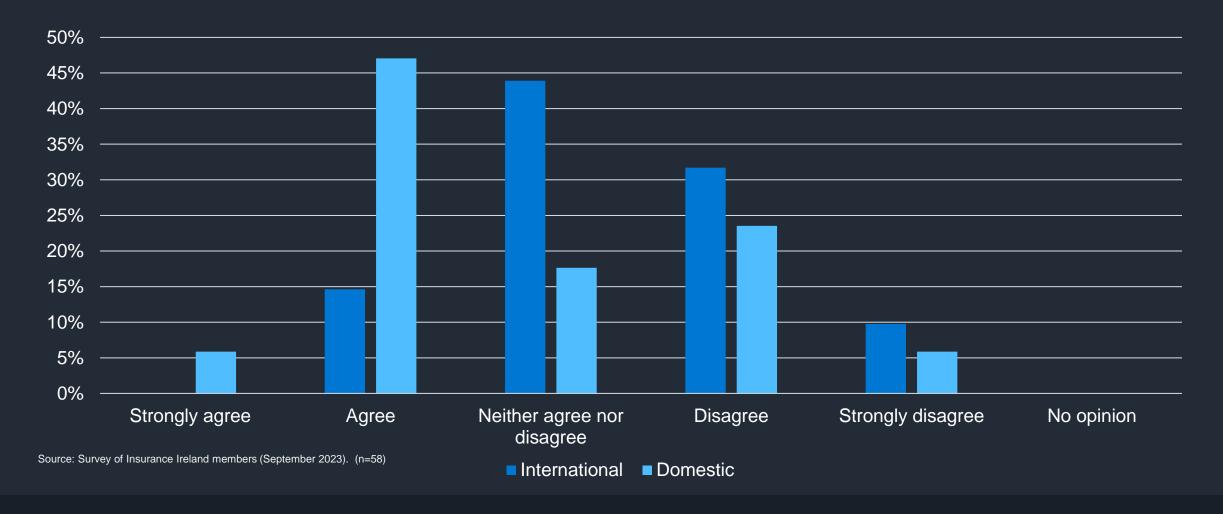

#### **Expect to invest further?**

## Views on regulatory regime

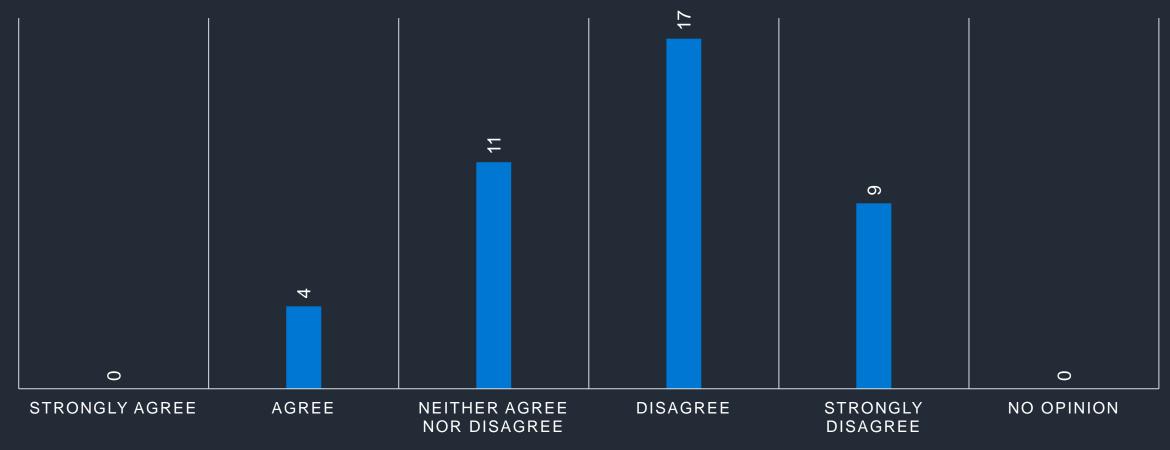

Question: 'Do you feel that Ireland's regulatory regime has a positive impact on the sector?'

## Views on regulatory regime

Question: 'Do you feel that the regulatory regime in Ireland makes it more attractive than other competitor locations?'

Source: Survey of Insurance Ireland members (September 2023). Responses from international firms only. (n=41)

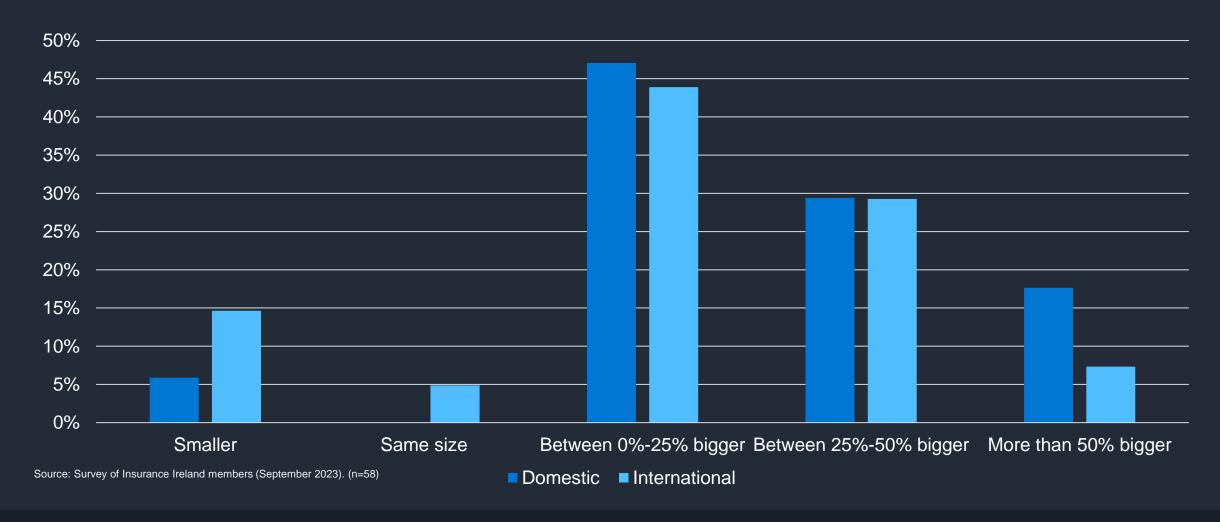

## Outlook

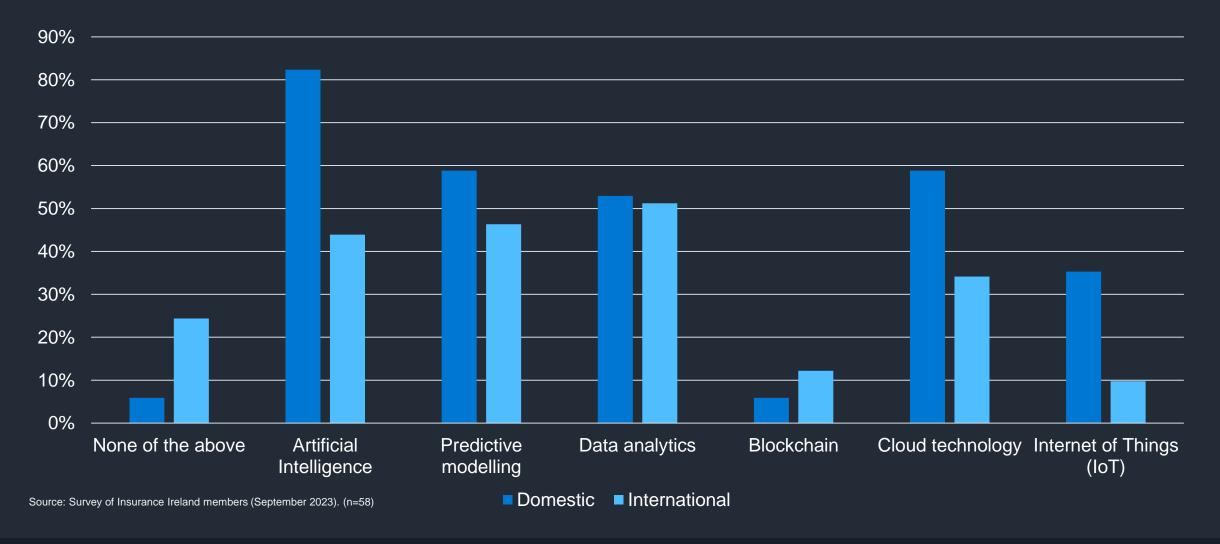

## Incumbents expect to grow

Responses to survey question on expectations for relative size in five years' time

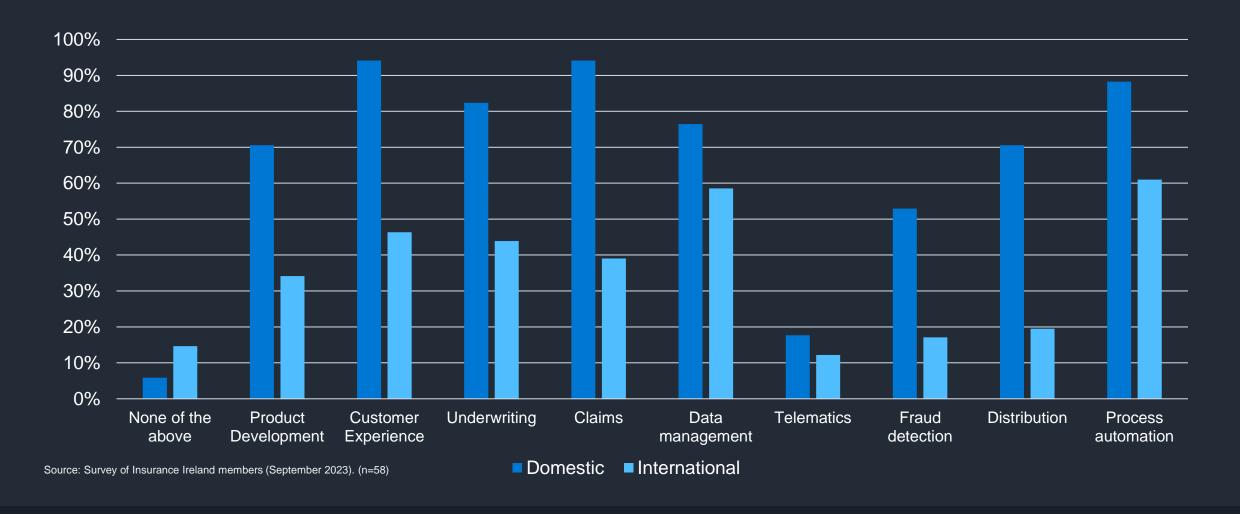

## Insurers intend to invest heavily in technology ...

## ... with applications across the entire value chain

## Outlook – Common Themes (1)

#### **Macroeconomic Outlook**

- Inflation is a concern for most insurers
  - Claims inflation
  - Salary and cost inflation for employees
  - Cost-of-living pressures for consumers.

#### **Cost of doing business**

- Cost-of-living pressures for employees and customers is a key concern to the industry
- Challenging to attract and retain staff (both locals and those coming from abroad)
- Skills shortages, particularly in IT
- Regulatory and compliance cost

## **Outlook – Common Themes (2)**

#### **Technology**

- Al, predictive modelling and data analytics were singled out by many insurers as key areas of focus.
- Some are worried about the potential threat from new entrants with digital business models.
- Plans to move away from legacy systems and processes
- Cyber risk/data breaches is a key concern for many insurers.

#### Regulation

- Concerns about the impact and burden of regulation more pronounced amongst international respondents.
- Concerns included the application of existing regulation and the potential impact of further planned regulations, particularly the Individual Accountability Framework.

# Summary

## Summary

## Economic and social contribution

- Significant contribution to the Irish economy
- Employs 35,000 people
- €2.7 billion annually to the Irish Exchequer
- €68 billion paid in claims
