

Professionalism CPD Resources

Members are free to source Professionalism CPD from any source provided it meets the objectives of Professionalism CPD as set out in the CPD Scheme (and which is reproduced in Appendix 1 to this note). For events/activities external to the Society, except those outlined below, members should be in a position to explain why they consider that the activity being put forward as Professionalism CPD meets the definition.

In order to assist members, this note provides examples of online sources for Professionalism CPD. A number of the resources listed are available on the Actuvview platform which hosts a great deal of content from other actuarial associations. Your Actuvview password will have been notified to you by email previously but if you are having trouble accessing it then please email info@actuaries.ie

This note does not include details of the Society's in-person Professionalism CPD events as details of these are available under the events section of the website and these events were not recorded.

(2023-2025) Sample Recordings suitable as Professionalism CPD

Further pre-2023 samples are shown in Appendix 2. For members who are also IFoA members there is also extensive professionalism material available on the IFoA website in the Professional Skills Hub in the Virtual Learning Environment.

Appendix 1 - Definition of Professionalism CPD

Extract from ASP PA-1

3.3.3 Professionalism CPD is any event or activity that enhances understanding of professional obligations by doing any of the following:

- o Enhances members' understanding of principles of ethical behaviour and how to apply these in making professional judgements;*
- o Equips members to make reasoned and justifiable decisions in resolving ethical dilemmas;*
- o Enhances members' understanding of what it means to act in the public interest;*
- o Helps members to demonstrate ethical behaviour in conducting professional life; and*
- o Enables members to recognise ethical dilemmas and take appropriate action.*
