

Dear Sir or Madam

Due to the coronavirus pandemic, many conferences worldwide have been canceled or postponed. As an online streaming platform, we at actuvew are currently working with several partners from our actuarial community on preparing online alternatives of their events. With this effort, we want to ensure that actuaries in all disciplines and all over the world have access to interesting and valuable content for their professional education, and that they have opportunities for a digital exchange of ideas during this period of working from home and social distancing.

We wish you all the best and good health during these difficult times.
